BRCS News

Autumn 2019

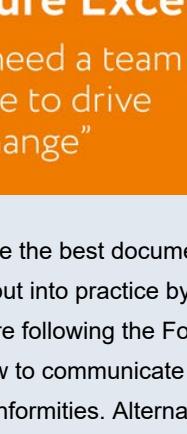

Dear Colleague

Here, at BRCGS in London we had very busy and exciting summer. In August BRCGS published Packaging Materials Issue 6 and Ethical Trade and Responsible Sourcing Program Issue 1. We also published the draft consultation document of Issue 1 of the Plant-Based Certification Program to give you an opportunity to review and feedback your thoughts. In this Autumn edition, we talk about the BRCGS brand, Ethical, Food Safety Culture Excellence, Compliance and much more. Enjoy the read.

→ BRCS

We've received lots of questions about our new brand and why we have changed our name. Here is a [brief history](#) and an explanation of the journey to our new name BRCGS.

On 1 August BRCGS published the Ethical Trade and Responsible Sourcing Program. We spoke to Michael Wilson, Global Head – Ethical Trade and Responsible Sourcing about the process of creating a new [Program](#). Read the interview [here](#).

The BRCGS Marketing team [interviewed Fiona Humphries](#), Technical Manager – Ethical Trade and Responsible Sourcing to find out the answers to the most common questions, regarding Ethical Trade and Responsible Sourcing Risk Assessment guidance.

Food Safety Culture Excellence

"You need a team to be able to drive the change"

A photograph of two women in food safety uniforms, one wearing a hairnet, smiling at each other.

"You can have the best documented food safety processes and Standards in the world, but if they're not consistently put into practice by people, they're useless" said Frank Yiannas. Make sure that the employees are following the Food Safety rules and [apply](#) for the Food Safety Culture Excellence module and learn how to communicate with the employees in order to improve your company performance and avoid non-conformities. Alternatively, fill the [form](#) on the BRCGS website, and we will be in contact.

GLOBAL STANDARD
FOOD SAFETY ISSUE 8

UNDERSTANDING AIR QUALITY REQUIREMENTS AND AIR FILTER SPECIFICATIONS IN FOOD PRODUCTION

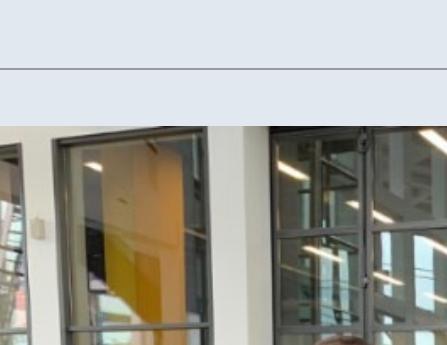

Air quality in production facilities is important as part of the management of food safety and to ensure a safe environment for staff.

BRCGS have published a [guideline](#) on how to ensure air quality and explains the new ISO Standards applicable to air quality and filtration which helps sites understand best practice and the new terminology being used. A copy of the guideline is available on [BRCGS Participate](#).

BRCS Food Safety

F837: Position Statements

BRCGS have published a new Position Statement for the Food Standard Issue 8. A copy of the document is available [here](#) or from [BRCGS Participate](#).

BRCGS Americas is hosting webinar series. Read more details [here](#).
